

Dear Parent(s),

My records show that you or your physician has identified your child as having Asthma. To help me better understand and manage this disease in the school setting, I am asking you to fill out the enclosed questionnaire. The information you give helps myself, your child's teacher and/or a substitute school nurse give the best care to your child. In the event of an asthma episode, we will all know the best course of action to be taken.

For your information, there is a national organization called the Asthma & Allergy Foundation Of America, www.aafa.org/ . The local New England chapter is located at 220 Boylston Street, Chestnut Hill, MA. 02467, (617-965-7771). They offer management tips, guidance, workshops and a newsletter.

Thank you, and please call me at 781-581-1600 if you have any questions or concerns.

Sincerely,

Cheryl DiLisio, RN
School nurse
